

To my potential employer:

"The creative 'act' is a process, not a moment"

...and through this process we grow, we learn, we inspire, we get inspired and we adapt. These are all reasons why I chose to become a designer, and they are also the reasons why I absolutely love what I do.

My name is Jade Naro and I am a recent graduate of the Ohio State University with the degrees of a BSD Interior Design (commercial and residential) and a BS Human Ecology: Fashion & Retail Studies (textiles, retail environments, and branding). My education, which has provided me with knowledge of the fashion, design, and architectural industries, gives me a unique design edge, and has allowed me to be very open-minded in my designs and techniques.

Throughout my education, I was active in introducing fellow students to the professional community by being a leading member of design groups such as IIDA, ASID, and Design Circle. At our IIDA Chapter's 1st Product Runway, an event in which you make a garment out of some interior product - in our case, carpet, my team was rewarded 3rd place. In addition, I had the honor of receiving 'Best in Show' in our Design Program's annual Senior Design Show, a juried exhibition of senior design student's thesis work.

My professional experience consists of design internships for a wedding and event planner, a commercial designer, a residential designer, and a contractor. I have also been lucky enough to endeavor to start my own bag and accessory business, Aeolist Design Ltd, in which I am a manager, a designer, a manufacturer, a photographer, and a marketer. Running a small business has taught me a lot and has led me to better appreciate and understand the importance of collaboration, organization and good communication. In addition to that general knowledge, I feel that I have gained a well rounded perspective on different areas of the Interior Design field.

I know that I have a lot to learn, but I also know that I have a lot to show - and I would love to have the chance to show the rest of the design world what I can offer. I am a dedicated, driven and all-around positive individual and I would love to start a conversation with you about any opportunities.

Thank you for your time.
